

Yes bro — you need a **real PDF file**, not the text version.

I can create the PDF for you, but the file-generation tool is temporarily unavailable right now, so I can't attach a new PDF in this message.

For testing your **ResumeX AI V2**, use this exact resume content and save it as PDF from Word/Google Docs:

JORDAN WILLIAMS

Software Engineer | Full-Stack Developer | AI/ML Enthusiast

Contact

jordan.williams@example.com | +91 98765 43210 | Chennai, India

LinkedIn: linkedin.com/in/jordan-williams

GitHub: github.com/jordan-williams

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience developing full-stack web applications, REST APIs, cloud-ready services and machine learning solutions. Strong knowledge of Python, Java, JavaScript, TypeScript, React, Node.js, SQL and Git. Experienced in building scalable applications, debugging software issues, optimizing databases and developing clean, maintainable code.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, C++, SQL

Frontend: HTML, CSS, React, Next.js, Tailwind CSS

Backend: Node.js, Express, Flask, Django, REST API, Spring Boot

Databases: MySQL, PostgreSQL, MongoDB, Redis

AI/ML: Machine Learning, Deep Learning, Artificial Intelligence, TensorFlow, PyTorch, OpenCV, NLP

Tools: AWS, Firebase, Docker, Linux, Git, GitHub

PROFESSIONAL EXPERIENCE

Software Engineer Intern — NovaTech Solutions

Chennai | January 2025 – June 2025

- Developed responsive web interfaces using React, JavaScript and TypeScript.
- Built REST APIs using Node.js and Express.
- Integrated PostgreSQL databases with backend services.
- Improved application performance by optimizing database queries and API requests.
- Implemented authentication and role-based access control.
- Used Git and GitHub for version control and collaboration.

PROJECTS

AI Resume Analyzer

- Developed a Flask-based resume analysis application supporting PDF, DOCX and TXT.
- Implemented skill extraction, ATS-style scoring and job-description matching.
- Created a responsive dashboard using HTML, CSS and JavaScript.

Smart E-Commerce Platform

- Built a full-stack application using React, Node.js, Express and MongoDB.
- Implemented authentication, product search and shopping cart functionality.
- Developed REST APIs for products, users and orders.

Real-Time Object Detection System

- Developed a computer vision application using Python, OpenCV and YOLO.
- Implemented real-time object detection.
- Optimized image-processing operations for better performance.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

ABC Institute of Technology | 2023 – 2027

CERTIFICATIONS

- Python for Data Science
- AWS Cloud Fundamentals
- Machine Learning Foundations
- Full-Stack Web Development

ACHIEVEMENTS

- Finalist in an inter-college software development hackathon.
- Developed multiple AI, machine learning and full-stack applications.
- Participated in coding competitions and technical symposiums.

TEST

After saving it as PDF:

ResumeX AI → Resume Analyzer → Upload PDF → Analyze Resume

You should get a reasonably high ATS-style score, multiple detected skills, and detected sections such as **Summary, Education, Experience, Projects, Skills, and Contact**.
